

NAME

rmdir – remove a directory

SYNOPSIS

```
#include <ShoreApp.h>
shrc Shore::rmdir(const char *path);
```

DESCRIPTION

Rmdir removes the directory given by *path*. The directory must be empty except for '.' and '..'. A directory cannot be removed by a process whose current working directory is that being removed. The root directory of a volume cannot be removed with **rmdir**.

VERSION

This manual page applies to Version 1.1 of the Shore software.

SPONSORSHIP

The Shore project is sponsored by the Advanced Research Project Agency, ARPA order number 018 (formerly 8230), monitored by the U.S. Army Research Laboratory under contract DAAB07-91-C-Q518.
